- To avoid and resolve conflict
- To be a leaders of peers
- The value of community service
- The importance of physical fitness
- Study skills and strategies
- The Benefits of team success

Leadership Education and Training (LET I & LET II):

Co-ed, Grades 9-12

As the only Junior Reserve Officer Training Corps (JROTC) credit-producing summer leadership course west of the Mississippi River, ANA's Camp Challenge stands alone rewarding successful participants with 180 hours of Leadership Education and Training credit. LET I campers learn to focus on achievement as they work to overcome physical and mental challenges while developing self-confidence as leaders and contributing team members.

In the second level of the LET program campers focus on more advanced citizenship skills while continuing their development as self-confident team members. Building on their LET I experience, LET II campers take part in health and first aid instruction designed to promote wellness through nutrition, physical fitness, and substance abuse prevention.

Leadership Development Program (LDP):

Co-ed, Grades 6-12

Divided into middle school and high school sections, ANA's LDP presents leadership training with group instruction, hands-on learning, and outdoor adventures. While the middle school level is ideal for campers beginning to explore their leadership potential, the high school section caters to teens that are interested in enhancing existing leadership skills. LDP Campers gain invaluable life skills while taking part in recreation activities, and team challenges that reinforce accountability, discipline, respect, and other traits that set the foundations of success.

“Camp Challenge was a life changing experience for my son. He excelled in the structured, motivational environment and discovered his leadership potential. For these reasons & the style of teaching offered at the Academy, he decided that ANA would be the best place for him to go to school.”
